Fee information for new entrants in 2021-22

This document provides information about the prescribed fee caps that apply to individual higher education providers and the maximum fees chargeable by that provider to new students starting courses in 2021-22. It shows the fee information for providers who are registered with the Office for Students (OfS) in the 'Approved (fee cap)' category as at 1 December 2020. This document will be updated on an annual basis in the autumn.

Data source and coverage

Fee limits shown here are the maximum fees chargeable by a provider to new students starting courses in 2021-22, with information provided for each different course type offered by the provider. Information is included for providers who are registered with the OfS in the 'Approved (fee cap)' category, whether or not they hold an approved access and participation plan.

Throughout, these fee limits are applicable in respect of 'qualifying persons' on 'qualifying courses' (who are also the focus of access and participation plans). These are prescribed by regulations made under the Higher Education and Research Act 2017. More information can be found in Regulatory Notice 1 at www.officeforstudents.org.uk/publications/regulatory-notice-1-access-and-participation-plan-guidance/.

For providers that have an approved access and participation plan, information has been sourced in respect of the relevant plan at 1 December 2020 as follows:

- For providers that have an access and participation plan that came into force for 2020-21 (and is expected to remain in force for 2021-22), the maximum fee chargeable by the provider for each course type has been collected via the annual fee information document. More information about the annual fee information document can be found in the guidance at www.officeforstudents.org.uk/publications/annual-fee-information-collection-guidance/.
- For providers that have a plan that comes into force for 2021-22, the maximum fee chargeable by the provider for each course type in 2021-22 has been collected within the access and participation plan approval process.

For providers that do not have an approved access and participation plan that will be in force for 2021-22, the maximum fee chargeable by the provider for any course type is defined by the relevant fee cap prescribed in regulations made under the Higher Education and Research Act 2017. The information shown here for these providers reflects the prescribed fee caps for 2021-22, correct as at 1 December 2020. Approval of access and participation plans is an ongoing process and plans may be varied (and re-approved) at any time. The maximum fees detailed here may change as a result of variations to plans, or approval after 1 December 2020 of access and participation plans that will come into force for 2021-22.

Legislative context

Maximum tuition fees for the 2021-22 academic year in England have been prescribed by the Secretary of State for Education in regulations made under the Higher Education and Research Act 2017. In completing their access and participation plan, a provider may choose to set their maximum fees at or below these prescribed fee caps.

The basic and higher fee caps prescribed in this way are shown in the last two columns of the tables in this document. The fee caps differ by course type and whether or not the provider held a valid Teaching Excellence and Student Outcomes Framework (TEF) award at the relevant time. The relevant time for holding a valid TEF award is

prescribed by regulations made under the Higher Education and Research Act 2017 at www.legislation.gov.uk/ukpga/2017/29/schedule/2/enacted.

The prescribed fee caps are based on a provider's regulatory status as of 1 December 2020. The regulatory status of providers is subject to change; up to date registration status information can be found in the OfS register at www.officeforstudents.org.uk/advice-and-guidance/the-register/the-ofs-register/.

Further information about the current prescribed fee caps can be found at www.officeforstudents.org.uk/advice-and-guidance/promoting-equal-opportunities/access-and-participation-plans/fee-limits/.

Important information

Users should refer to the provider's website for further details of the fee levels for individual courses. This is because:

- Providers may charge a range of fees for any given course type (for example, for different subject areas or for provision that is delivered through a sub-contractual partnership).
- Maximum fees chargeable to students who started their courses prior to 2021-22 were detailed in access and participation plans and/or access agreements that were approved in relation to the student's year of entry.
- For part-time students, the fees charged may be dependent on the intensity of study and/or the study content for each student.
- Fee information for 2021-22 will be published separately from a provider's approved access and participation plan, if that plan came into force from 2020-21.

If a particular course type has not been returned by a provider, the OfS assumes that this course type is not run at the provider. Consequently, without an access and participation plan being varied (and approved by the OfS) the provider would not be able to charge above the basic fee if it were to accept new students for these course types in 2021-22. Course types that the OfS assumes a provider is not running are shown in the data tables with an asterisk (*).

The OfS records a copy of all the access and participation plans and access agreements that have been approved for a provider. Individual URLs are included for all providers at www.officeforstudents.org.uk/advice-and-guidance/the-register/search-for-access-and-participation-plans.

Enquiries

For enquiries regarding the fee limits data, please contact APPData@officeforstudents.org.uk.

For enquiries regarding access and participation plans, please contact app@officeforstudents.org.uk.

For enquiries or concerns regarding fee breaches, please contact regulation@officeforstudents.org.uk.

Fee information for new entrants in 2021-22, by provider and course type

(†) The amount shown is the maximum chargeable in an academic year.

(‡) Maximim fees chargeable for sandwich, Erasmus and overseas study years that are within accelerated degrees are not shown separately here. Further information about the prescribed fee caps for such courses can be found at:

www.officeforstudents.org.uk/advice-and-guidance/promoting-equal-opportunities/access-and-participation-plans/fee-limits/

If a particular course type has not been returned by a provider, the OfS assume that this course type is not run at the provider and it is shown in the data tables with an asterisk (*).

(#) Approval of the provider's 2021-22 fee levels is pending.
