Design 1

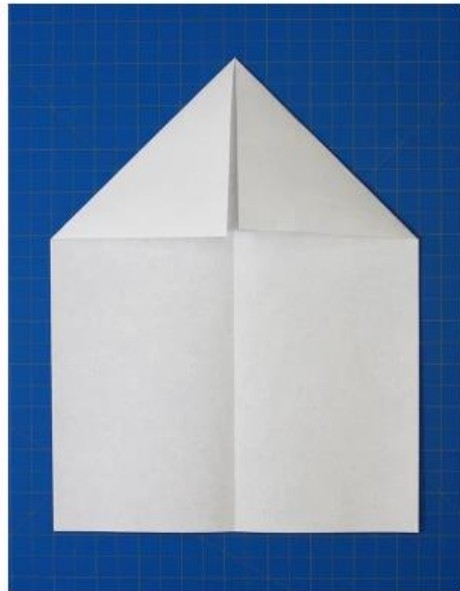

The Stable: This paper airplane has a lot of stability and can fly for a long time.
<https://www.foldnfly.com/2.html#The-Stable>

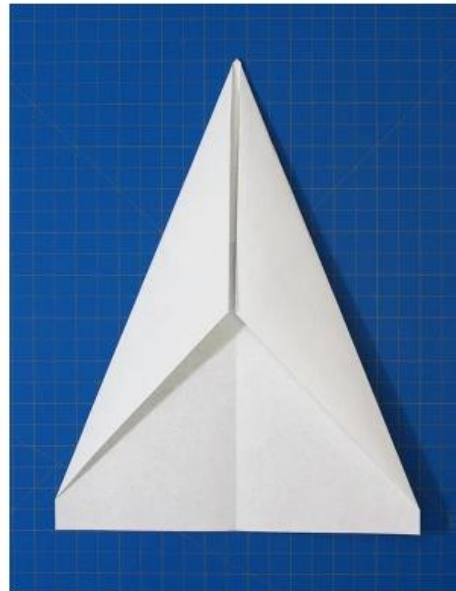

Design 2

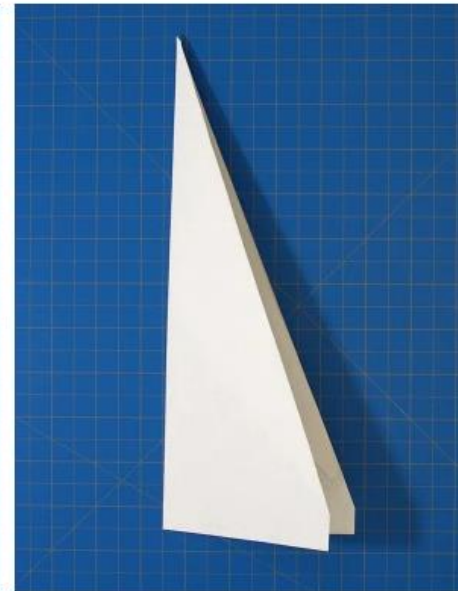

1. Fold the paper in half.

2. Unfold and then fold the corners into the center line.

3. Fold the top edges to the center.

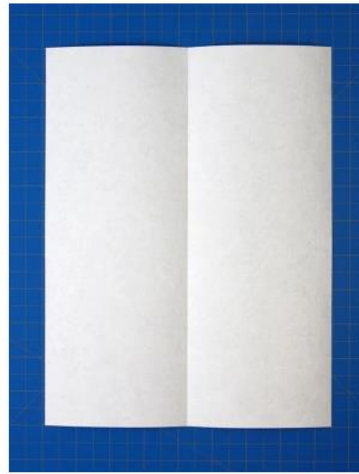

4. Fold the plane in half.

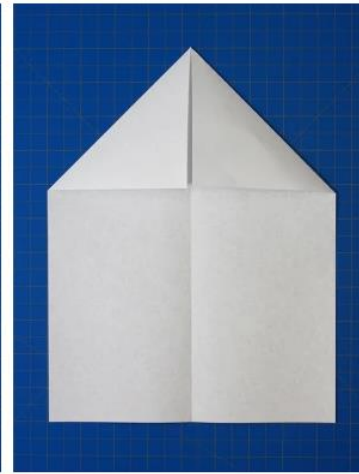

5. Fold the wings down to meet the bottom edge of the planes body.

The Dart: A basic design with decent distance and speed.

Design 1

1. Fold the paper in half.

2. Unfold and then fold the top two corners to the center line.

3. Fold the top peak down to create a square.

4. Fold the top two corners to the center about an inch above the downward facing point, to form a triangle shape on top and a diamond shape on bottom.

5. Fold the downward facing point up to secure the flaps.

6. Fold the plane in half away from you and flatten it out.

7. Fold the edges down to create the wide wings.

The Stable: This paper airplane has a lot of stability and can fly for a long time.
