## About

I am a creative in the areas of Directing and writing for both theatre and film, including stage management, where I have gained the experience and skills in. I have skills in devising pieces and also dramaturg. I am very reliable, as I am very organised, good with communication, leadership skills and have good time management. I also have gained the experience in working with sound and light for both theatre and film, also the experience of working as a producer for a short film. I'm also has skills in research and IT, including using software.

---

---

## Additional Information

---

I volunteered at local theatre projects in my spare time during my time in education gaining more experience and skills in technical areas of the theatre such as backstage and lighting.

During my time in education I have had a part time job as a front of house in a local pub and cafe. From these jobs I have gained the knowledge of communication, thinking fast on my feet and working as part of a team.
